DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 28, 2004 has been entered.

Claim Objections

Claim 52 has been canceled, overcoming the earlier objection.

Election/Restrictions

The restriction requirement in the Action of July 28, 2003 is maintained. Applicants have not reduced the scope of the claims 49-51 and 55-57 as required. Applicants intent to submit a Declaration to support all micro tubule stabilizing agents and not just paclitaxel, epothilone A, epothilone B, desoxyepothilone A and desoxyepothilone B as offered in the interview of February 19, 2004 is noted. However, said Declaration has not been received.

Claim Rejections - 35 USC § 112

Claims 49-51 and 55-57 are again rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the specific antineoplastic agents which are microtubule-stabilizing agents, does not reasonably provide enablement for the term "an antineoplastic agent which is a microtubule-stabilizing agent." The

Art Unit: 1614

specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. Applicants intent to submit a Declaration to support all micro tubule stabilizing agents and not just paclitaxel, epothilone A, epothilone B, desoxyepothilone A and desoxyepothilone B as offered in the interview of February 19, 2004 is noted. However, said Declaration has not been received.

Final Action

This is a continuation of applicant's earlier Application No. 09/445,054. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
